

63. Demons And Archdemons

There are Many Different Kinds of Demons and Archdemons. The Reptilians are Called Draconian Winged and Unwinged. The Winged Ones are a Higher Form of Negative Force Than the Unwinged Ones. The Unwinged are Less Advanced or Younger Souls. The Large Greys and the Small Greys Also are Archdemons But of Lesser Power Than the Reptilians.

If You Ever Feel There Are Any Kind of Negative Forces Around, You Can Command Them To Go To The Light. Always call on Archangel Michael For Help and Protection. He will See That They Are Taken To Their Rightful Place of Expression. Then Simply Say With Love and Light, **“YOU HAVE NO POWER! YOUR DAY IS DONE! I COMMAND YOU TO GO TO THE LIGHT!”**
