## The Crystalline 6<sup>th</sup> Dimension

What can you tell me about the crystalline 6<sup>th</sup> dimension?

“Alright Beautiful One, we will discuss the issues of the dimensions above first. The Grand Creator, the Essence of all Beings in its Light frequency and Light form created this consciousness to explore individual components. What we will do is talk about the souls of yourself and souls of all life existence, when that did and does occur for it is a constant occurrence. Then it must be what you would call downloaded, from the Light explore to the interaction of the highest creator forms. Then it expels its self from the Oneness into its multiness. From there it will walk its self right into your matrix of individuality. Therefore, you are a matrix, the stones are a matrix, animals are a matrix, dynamics of everything you create on the earth and are creating through the galaxies already exist in this 6<sup>th</sup> dimension as formations that you may call matrixes. So now we will use another language with that. In your human world if you are going to build a building you have an architect design it. To create how it will look in what you call the first structure. Then you will bring it into a picture form of its finality. So you may look in your 6<sup>th</sup> dimension as though you are looking at the architect’s choice design the great architecture’s design of all existence. So Beautiful One if you want to know how the pencils are shaped you will see the design in the 6<sup>th</sup> dimension from its matrix not from its finished product. If you want to see that which is called the perfection of your own body you will journey into the 6<sup>th</sup> dimension and you will see an entire matrix. Not just your physical body but the make-up of your whole self which is mind and emotions as well, is it not? Again and again you may utilize that concept for all existence.”

“So in your 6<sup>th</sup> dimension you will find the pure matrix and it looks like **geometrical designs** to your inner eye and your brain waves when you are inter-connecting with it. Does that help you?”

Yes it does!

“And again we will say you can come into a meditation time with an intention. Your intention is to make your way into the 6<sup>th</sup> dimension to make expansions of your consciousness journey into the 6<sup>th</sup> dimension. You may say unto this vibration ‘**I desire to see the architecture of all living experience.**’ As well you may say ‘**Let me see the architecture of me** and allow yourself to see that.’”

How fascinating, Thank you Malachi.

## **Opening The Doorway To The Crystalline 6<sup>th</sup> Dimension**

Can you assist me in being able to absorb and enhance my energy and my Light quotient so I am able to rise into the newly opened frequency doorway of the crystalline 6<sup>th</sup> dimension?

“Alright, Beautiful One, we would like to tell you to shed. What do we mean by that? Well shed the beliefs, shed the attitudes that you cannot. Shed all the strenuous energies around you, that is people, that is life events then you allow yourself to be what is called the **Single Light**. Within that what do you suspect will happen?”

I will be able to open the doorway!

“Indeed, indeed.”

**It is letting go!**

Indeed it is. **That is the Greatest Secret!”**

So we just sit down in meditation and ask for that right?

“Indeed. It is quite simple the doubting of the human mind wants to make it very complex because if you make it very complex you believe it is greater, better and you are there. **Remember to make it Simple! All things of Spirit are Simple!”**

Thank you, Malachi.

## **Your Soul Song and the 6<sup>th</sup> Dimension**

Does my soul song resonate to the mid-fourth dimension and above yet?

“Indeed it does Beautiful One, we can see it even unto the 6<sup>th</sup> dimension.”

Oh that is exciting! Is it true that there are **Light pyramids** that are attuned to everyone’s different soul songs on the 6<sup>th</sup> dimension?

“In the 6<sup>th</sup> dimension we call them the matrix. Here in the 6<sup>th</sup> dimension is the matrix of all things and all existence. Here you may call it the soul song. For your own self and the personal incarnation you have and matrix for other incarnations that you have experienced. All of them are **Light Matrixes** and yes, when there is a tonality of it then it is seen as structures, individual Light structures within the 6<sup>th</sup> dimension.”

I am trying to figure out a way by using my soul song that you have given to me and merging it with a pyramid on the 6<sup>th</sup> dimension that would allow me to download within my crystal bed in the back of my head some higher wisdom. Is that appropriate?

“It is appropriate and here you will say to yourself: **‘Then I will make the journey through the dimensions and will connect into the 6<sup>th</sup> dimension frequencies.’ You will see that it is called the Sacred Geometrical Shapes** here and you will call upon that of your Soul Song vibration. You understand?”

They will know them?

“Indeed, you simply will request for yourself to know it in the 6<sup>th</sup> dimension.”

Ok, would it assist me to have the recording of my soul song playing?

“Indeed it would. We will say unto you, to all of you, **blend, blend** into the vibrations of the matrix. **Feel it within yourself and you will activate it very clearly, then into your personal incarnation.**”

Perfect. So on the 6<sup>th</sup> dimension, is it more crystalline and are any of the colors more predominate than others or more sparkly?

“Well Beautiful One there are a variety of colors for each matrix, each with its own multi-colors within it.”

Thank you, Malachi.
