Eliminating Discordant Frequencies and Purifying Your Bodies

What is the most effective way I can use to eliminate all the discordant frequencies I have created and purify my physical, emotional, mental and astral bodies so I can move beyond my physical limitations?

“One, we are going to tell you to embrace all the physiological limitations as though you can say to them ‘**All is good and all is healthy!**’ Then this will change the unconscious mind into a peaceful state. When you are in the peaceful state then you are already receiving a cleansing! You can always set in the meditative point of view of your consciousness then allow Holiness to move through all of these subtle bodies. When it does, and it finally passes into the physical structure of your consciousness and your unconsciousness you will **feel the peace**. Do you understand?”

Yes I do.

“Indeed.”

Thank you very much Malachi.

Light Infusions

How can I prepare myself for my next Light infusion?

“Beautiful One, the Light infusion is a constant. Whether you think you are accepting it or not, it is none the less passing through you. So worry not! Know that it is and know that you are taking it up. What does it mean to take it up? It means that it passes through your cellular vibration into your unconsciousness and then to your consciousness.”

So that works for everyone?

“Indeed it does.”

Thank you, Malachi.

World Servers

How can I become qualified to join the Group of World Servers?

“One, simply accept it.”

I’ll accept it, I do!

“For you are, Beautiful One, and remind yourself again every time you are aware of your harmony you are aware of your sacredness, you are serving your humanity. Then remember, Beautiful One, that you carry an intention to share as much knowledge as you have within you with others.”

That is true and that is a service so that does help them.

“Indeed.”

Thank you very much Malachi.
