

## **38. Laser Light Healing Process To Remove Dark Negative Crystals In My Chakras**

**Beloved Malachi, Katherine Bell, Ph.D.,D.,D.**

**And Barbara “Marrianna” Zimmermann**

Can you assist me in clearing and Healing my subatomic Dark Crystals that are throughout my Body? They are packed with Negative Waste material I created and recreated over many past lifetimes. Plus any inherited Negative patterns that I brought with me to the physical form to Heal?

“Indeed, Indeed now what we are going to do is ask you again to let your Consciousness merge into your Spinal Column. For here is where the Negative Crystalline vibrations are, the Negative Thoughts, and Negative Memories.

“Let us first begin with the space between the Root Chakra and the Second Chakra. For here is where some vibrational Essences of Consciousness that have crystallized in their Reality, again over centuries of Time. It has been what is called the Fight and the Struggle of living your Human Self. The Fight and the Struggle are Feeling as though this World, the Earth World is not a safe World. In the vibration of yourself Breathe Light into this portion of the Spinal Column, between the 1<sup>st</sup> and 2<sup>nd</sup> Chakras. Bring Light that is unto your Consciousness a Laser that can Blast away the crystalline vibrations that you call the Dark Crystals. Feel the movement, as the crystalline vibration is splattered by the Laser, let it be eliminated through your Auric Field, released into the Etheric Vibrations, cast upon the Power of the Divine to Purify it.

“Now come up through the Spinal Column, next you are going to join the Force Field between your Solar Plexus and the Heart Chakra. It is Very Important that this vibratory spot of Consciousness is cleared! You can again align here and recognize the crystalline consciousness. It is the Crystalline Consciousness of Not accepting Self. As you reside in it again, you are going to Bring the Laser Light of the Universe through this spot as well. Transforming this Energy, splattering it again, that it moves out of

your Auric Field into the Ethereal Field where the Divine Transforms it, Purifies it and Purges it from your Consciousness.

“Then come again a bit further up the spine come into the Energy of the thoracic that is the vibration of the throat. It is between the Heart and the Throat Chakra at the Spinal Column. Here the Dark Crystals crystalline Consciousness that has been held is a vibration you have taken through many lifetimes. Through your words you have been harmed. Through speaking you have been called to death. The removal of your Head in one of the lifetimes. The simply breaking of your neck in another lifetime. The causing of vibrational disturbances to the vocal cord so that your words could not be heard, your Truth could not be spoken, your Wisdom could not be shared. You want to break this vibration. Again see the Laser Beam of Light Scatter this crystalline form of Consciousness Releasing it throughout your Auric Field and into the Etheric Spaces. Again acknowledging the Higher Consciousness, the Divine Purifies and Purges this from your Reality.

“Now let us have you come to your Medulla for here consistently growing and regrowing is the crystalline vibration. IT IS THAT WHICH YOU WANT TO SPATTER, FOR IT BLOCKS YOUR MEMORY OF YOUR TRUE SOURCE SELF! It keeps you remembering you are separate. It keeps you striving for Evaluation of Oneness but Fearing it. Bring that Laser Light Beam there. Break the Field, let it splatter Beyond you. Let the Universal Purging take form here, as these vibrations crystallize as they are breaking apart.

“We ask you to Breathe in the Energy of Purist Light of the Divine, through your Nose and Stop at your 3<sup>rd</sup> Eye. Let that Beautiful Light Merge with your 3<sup>rd</sup> Eye. Breathe it to your Pineal Gland, merging changing the chemistry here. Then Breathe it further to the Medulla Allowing that Oneness Consciousness, the Sacred Memory of Source to be what Emerges Here and flowing down the Spinal Column. YOU ARE PERFECT ONENESS. LET THE BREATH VITALIZE THAT KNOWING ALL THE WAY DOWN THAT BEAUTIFUL COLUMN OF LIGHT RELEASING ANYTHING ELSE THAT WANTS TO REMAIN THERE.

**“As you let the Energy Rise back up through the Spine tapping the Medulla, tapping the Pineal, tapping the Pituitary in the area of the 3<sup>rd</sup> Eye. You allow yourself to know that in the alignment you are a Sacred Being and All that you are experiencing on the Earth has been for the Goodness of Knowing and Comprehending the Dense Matter of Earthly Existence. Know that you have not done something wrong. You have simply made a Journey! You have Done Everything Right and your Human condition is a Sacred Event.”**

**Thank you so much Malachi**
