

## **39. Purification and Removal of Negative Unproductive DNA Imprints in My Chakras**

**Beloved Malachi, Katherine Bell, Ph.D.,D.,D.**

**And Barbara “Marrianna” Zimmermann**

**Can you assist me in the Purification and Removal of All Genetic Negative Unproductive DNA Imprints of Eon’s past?**

**“Indeed those Genetic Imprints are locked in the Root Chakra. So once again you realize why we say to you, you must work with the opening of the Lower Chakras. We are going to take you first to what we will call it visualization. So again let us have you Breathe in, Recognize your consciousness where it resides then drop it within the Root Chakra. We are going to ask you to take a deep Breath and Visualize and see a Vibration spiral through the Root Chakra with Pure Fire. Watch that Fire Blaze and circle and Blaze and Circle. Then Begin to Feel the Blaze In through the Chakra, not only as it circles ethereally but what you would term the cells of your Body. Helping to Purify, Helping to Release, Helping to cure the Unconscious of its Intention to Hold on to what you call the Genetic Stream of the Earth Consciousness that has been around for thousands of years that are no longer necessary, in particularly your own Genetic Inheritances. Willing to Release after Generation, after Generation, after Generation, now do you Feel yourself Fired Up, warming up?”**

**Yes.**

**“Now as you watch that Fire Blazing, visualize it Blazing to ashes. The ashes are the Release of the Genetic Codes that you carried and are no longer needed. Now take another Breath and Feel yourself as though you are Blowing the Ashes Away and leaving a Pure Spin of Light in your Root Chakra.**

**“Know you can use this exercise for every one of your Chakras.”**

**Thank you so much Malachi**
