

25. God's Will

The Will of God is Another Attribute that Cannot be Fully Grasped and Understood by Human Beings. It therefore is Frequently Presented in Human Terms. So it is Here in the Words of Jesus.

My Son, the Will of God is a Human Way of Trying to Describe Something that is Not Describable in Human Language and Terms. The Will of God is Not Like the Will of a Human Being. Human Will Can Be Strong or Weak, Easily Summoned and Followed or Rarely Experienced or Used and All the Ranges and Spaces and Places in Between.

You have a Will and that Will is Strong in You. It Shows in Your Persistence to Complete a Task Once Begun. It Shows in Your Determination Once a Course Has Been Set. It is There When Others would Dissuade You from a Path You Have Chosen.

In Some it Isn't Much in Evidence at All. It is There Inside But Not Cultivated, Nor Used, Nor Developed, so that it Can Be An Asset to That Being.

Indeed, the Will of Man Can Be Found to Be the Igniter, the Spark, the Source of Energy that has Resulted in Many of the Great Inventions, Developments and Activities and Successes and Progress that Man has Produced and Continues to Produce on the Earth Plane. There are Many Stories of How Man through Sheer Will Has Won Out In the End, Overcoming Great Odds and Seemingly Insurmountable Obstacles but because His Will was Strong and Determined He was Successful in the End. Stories Abound Along such Lines. Tales from Before History Exist that Show the Power of the Human Will.

Now then Think on the Will of God as Compared to the Will of Man. How Little and Weak and Puny the Will of Man Now Becomes. How Could it Be Any Different for God is God and Man is Man? Man is but a Fragment of God, but God is All God, the Entire Source Of All That IS, the Total I AM.

With God there is No Such Thing as a Weak Will, a Useless Will, an Unused Will. There is No Possibility that God's Will Could be Broken as can Happen to Man if He is Defeated and Disappointed too often in some Undertaking.

God's Will Exists All by Itself and is Totally Supreme in Every Respect, for you See, when God Wills Something it IS!

Think on that for a Moment, My Child. What God Wills - IS! There is No Struggle with God in Using His Will. Whatever He Wills Immediately Exists in Total Completion and Perfection. Thus it Was when God Determined to Materialize as the Earth, the World, the Sun, Moon, Stars and All the Universes of the Spaces and All the Things Upon the Earth and in the Earth and All the Beings of Invisibility to Human Mankind, He Simply Willed It and It Was There.

Man Cannot Comprehend such a Will. He can Only Gasp in Awe at the Very Thought and Concept and See and Understand But the Very Fringes of such a Will and It's Powerfulness.

What then is the Will of God for You and for All the Children of Men on Earth of All Times and Places? You know the Answer, My Son. It is that Man, All Men and All Women and All Children, All Beings, Should Know His Love for Them.

This is God's Will for the Human Race and for All the Other Beings that Have Ever Existed, Exist Today and Will Exist in the Future.

Since when God Wills Something It Immediately Exists, so it is with this Will that All Should Know His Love. Every Being Knows the Love of God to Some Degree or Other. There are Many, Like You and Your Spouse, and the Light Workers that Dwell Throughout the Earth, that Know the Love of God Intimately and Constantly and with All the Power and Breadth and Scope of the Human Heart, Body and Soul. To such, the Love of God is a Living, Breathing, Truly Real Thing that Floods Through Their

Consciousness and Subconsciousness, that Pervades Every Thought, Every Moment of Every Day. It is a Love which Dwells with Them Daily and Always. It is the One Thing Above All other Things that Never Fails, Never Dims, Never Hides, and Never Forsakes Nor Goes Away.

There are, however, Others who Know the Love of God Only Dimly, as a Long Past Entity that Used to Dwell Side by Side with Them. A Thing that Enlightened and Enriched and Uplifted Them in their Earthly Travail and Sadness and Woe. In such People the Love of God Has Been Rejected, Trampled Beneath the Boots of Hatred and Doubt and Disuse. It is Still There. It Still Dwells Within and, on those Odd and Strange and Secret Moments, Even They, the Most Recalcitrant, the Most Hardened, the Most Negative, See it's Shining Deep Within.

It is Part of the Will of God that Light Beings Should Be The Sparks, the Matches, To Light the Way for Those Who have Buried and Hidden the Love of God Deep Within Themselves. I Have Spoken Often to You About the Role of Light Bearers in the World. How They Let the Light of God Shine in Their Words, Deeds, Lives and Every Action. How it Shines in and Through Their Very Beings and Existences. How the Words, the Messages, the Books, the Tapes and All the Other Mechanics of Man's Civilization can Share this Light with All the World.

You Know them Well, You Practice them Along with Every Light Worker and as You Do So, this Will of God is Immediately There and the Unseeing, the Unknowing Begin to See and Know the Love that Dwells in Them and They Step Upon the Pathway and Begin the Journey Back to Complete Knowing and Understanding that They Too are of the Godhead and are Part and Parcel of the Great I AM that IS.

There are other Aspects and Levels and Parts of God's Will, My Child, but be Content with what I have Shared with You. Think upon It and Share It as You have All Else Given to You.

Thank You Dear Jesus.
