

## **34. The Light Within**

The Light Worker tries never to Forget that the Light and Love of God Dwells in Himself and in All People Regardless of Whom They Are. It is Important to Remember This Because the Mission of Every Light Worker Is To Let His or Her Light Shine Upon All People Around Them. If We Forget the Love of God Dwells Even in Those who Appear to Be Totally Negative and Totally Within the Power of the Dark Forces, We Might Be Tempted to Ignore Them or to Pass Them By Without a Word or a Glance. Remember then that All People Have the Same Light Within Them as You and I Do.

This Truth was Brought Home to Me on a Trip We Took through some of the Western States. We had driven through an Exceptionally Barren Stretch in Northern Nevada. Using that Barrenness and My Thoughts as we Drove, Jesus Communicated the Following that evening:

**Your Drive Today seemed like a Long Tedious and Boring Time. Through it All Your Mind Went Back to Your Inner Spirit and Knowing, Your Experiences, Your Thoughts and Being Ready for Many other New Things. You did Learn just as in these Barren and Dry and Wide Open Spaces on this Earth, where there Appears to be Little or Nothing, yet many of God's Creatures, Plants, Animals, Birds, Insects, Bugs of All Kinds Inhabited them. So it is with Mankind as Well.**

**There are Many Barren Appearing and Seemingly Waste Groups and Individuals and Peoples on this Earth. In Them Also there is Much Life and Light. This is Only a Seeming Thing, for Inside Them Burns My Light, the Light that Leads Onto the Pathway to Me, to the Heavenly Father, to the Holy Spirit, to Levels of Beings far, far above Your Planet Earth.**

**It is Good to Remember that Though a Person May Seem Lifeless, Boring, Uninspired and With Low Vibrations, Still the Light of God Dwells in Him and He Needs Only To be Awakened. Only a Spark From You or From Another Light Worker Will Enable Him to Begin to Recognize and to Feel and to See His Own Light.**

**The Dry and Barren and Seemingly Lifeless Land You Passed Through Today is but a Picture of Much of Humanity. Seemingly They Too Are Lifeless and Barren but I Say To You They Also Bear Within Them My Light, the Light of God.**
